Original accessory Feuerdesign, Stainless Steel-Glass Hood

The specially designed hood with safety glass inserts converts your table grill into a true multi-talent.

The thermometer, integrated in the knob, makes it easy to read the reached temperature at any time.

The ideal temperature regulation is achieved by acting on the ventilator directly at the table grill.

The cooking hood is simply to be placed at the table grill one movement. Through the glass insert in the upper part of the cooking hood, stewing, low-temperature cooking or simply for keeping food warm. The food can be easily observed without having to lift the hood.

The now resulting oven can be used for grilling, cooking, baking.

Dimensions: 33 x 11 cm.

The Feuerdesign stainless steel glass cooking hood with thermometer is suitable for all our Feuerdesign table grill models. Hand wash only.

Lid gets hot, risk of burns! Use an oven glove to remove the lid.

The hood may only be operated at fan level 1. Turn the fan off when 220 degrees are reached.
